

I heard that you may be taking KLOVE radio station (FM 91.3) off line for the new broadcast service LPFM. This would be a disservice to our community. Why? KLOVE offers hope and encouragement to our community. It offers a place to call where one can receive a listening ear and someone to pray for you without asking anything in return. Being a beacon of hope is a service that is very much in the public's interest. For me personally, I enjoy listening to KLOVE on the way to work--it helps me prepare mentally for a day of working with customers.

Please do not take KLOVE off the air!!!!

Thanks!!!!

Michele
